PROGRAM OF THE WHITE MOUNTAINS REGION

ASSOCIATION 1967 (30th year)

N. H. - Quebec Information Booth.

Originated and sponsored an information booth trailer at Ayer's Cliff, Quebec. This project sold New Hampshire to people leaving Expo '67.

Snow Research.

Originated and prepared a 100-page application for research of snow erosion problems at our ski areas.

Whitewater Racing.

Introduced for the first time in the north country whitewater canoe races through an Androscoggin Weekend in September.

Fall Foliage.

Posted for the 20th consecutive season our 500-miles of fall foliage tours.

Other Projects.

Supported the 4-H programs with awards.

Studied and promoted various east-west highway routes for the north country.

Researched the need and supported a new bus connection from Littleton to Colebrook.

Received and answered 9,000 inquiries from outsiders who wanted to spend money in the White Mountains Region.

Report Of The Superintendent

**To the School Board and the Citizens of the
School District of Pittsburg**

FOREWORD

The large school building of the modern city and the little red schoolhouse of the pioneer hamlet are part of our picture of life in the United States. As American as apple pie, the schoolhouse is a symbol of community cooperation for the welfare of children and youth.

What every community needs in its schoolhouse is a structure, and a setting for it, that will make it possible for the community to have the best educational program that today's wisdom can devise, and at the same time to keep the way open for the improved program that the future will develop. Today the immediate need for additional school building in Supervisory Union No. 7 cannot be overlooked. The problem is not so simple, however, as that of merely replacing or extending the school facilities now in use. The more that today's citizens reflect on the demands to be met by the school plant, the more they realize that new schools must be more spacious and must be provided with many more mechanical features than the typical building in use today. This added space and serviceability means added costs. Even without these improvements, costs of construction have risen to such levels that new buildings of the most conservative type are far more costly than any previous schoolhouse construction. And, although added costs must be met, school money remains as difficult as ever to secure.

In this series of dilemmas the school administrator and school boards must exercise their soundest judgement. New Buildings must be built; some old buildings must be rehabilitated. The building policies with the help of the school staff, other citizens of the community, and such expert consultative services as are available. They will want to inform themselves on accepted principles and desirable practices in providing a total school plant that will meet present and future community needs.

Every citizen should see that the school building in his community meet the following criteria:

Curriculum adequacy--do they provide the space and facilities for the educational program that your community needs for its children, youth, and adults?

Safety and well-being--do they not only protect against danger but also provide a positive influence for improving the health and physical welfare of the pupils?

Interfunctional coordination--are they so planned that the activity in each part of a building may be coordinated harmoniously with related activities and may be carried on effectively without disturbing other activities?

Efficiency and ability--are they so planned that the handling of materials and the comings and goings of pupils, school staff, and the public are accomplished with a minimum of interference and a maximum of ease and satisfaction to all concerned?

Beauty--are they pleasing in appearance, with simplicity, usefulness, and balance as ideals, rather than ornamentation or symmetry?

Adaptability--are they so planned that they can be enlarged or rearranged internally to meet new educational demands with a minimum of additional cost?

Economy--are they so planned that in original outlay and in future operation the utmost in educational utility can be secured for every dollar spent?

Each schoolhouse in the nation reflects the degree of concern of each citizen for the welfare of the children in his community.

Respectfully submitted,

RICHARD W. HISLOP
Superintendent of Schools

NOTES ON THE BUDGET

The School Board's Budget for 1968-69 is \$148,860.00 in comparison to \$134,538.00 for the current year. This amount is reduced by estimated receipts of \$15,725.00 which leaves \$133,135.00 to be raised by the town as compared to \$113,376.00 for the current year.

The cause in the overall increase in the budget, which will be found in the financial section of this report, is teachers salaries, anticipated higher costs for fuel and greater Supervisory Union costs. The estimated revenue for 1968-69 is considerably decreased from the previous year due to the decrease in unencumbered balance and a year to year fluctuation in tuition revenue.

SCHOOL HEALTH

The objectives of a school health program are to perform the necessary functions to maintain and promote good health of the pupils in our schools. This contributes to the overall success and happiness of the students and enables them to perform better academically.

Services performed include: pre-school clinics every spring for in-coming first graders; checking height and weight of each student at the beginning of each year; testing vision and hearing of all pupils yearly; physical examinations for all students in grades 4, 8, 11, and athletics; immunizations as necessary; annual skin tests for T. B. in grades 1, 4, 8, 12, and personnel; and continuous supervision of general health.

As in the past two years, a dental health clinic was available to children in the elementary grades. A total of 45 youngsters from the whole union were treated at this clinic.

Generally speaking, the overall program of school health in this area is adequate, but as in all things, there are areas for improvement. It is hoped that by everyone working together these can be realized to the mutual benefit of our students and community as a whole.

Respectfully submitted,

DOROTHY L. DUCRET, R. N.
School Nurse
